Professional Summary

Motivated and passionate Full Stack Developer with a strong foundation in frontend and backend web development. Skilled in HTML, CSS, JavaScript, React.js, Node.js, Express.js, Python, Django, MongoDB, and SQLite. Experienced in building responsive web applications, REST APIs, authentication systems, and CRUD-based projects.

Internship Experience

Python Developer Intern - Web and Craft

July 2025

- Contributed to backend development using Python and Django following MVT architecture.
- Implemented CRUD operations and managed application data using SQLite.
- Assisted in developing RESTful features and backend logic integration.
- Debugged application issues and improved code quality and performance.
- Collaborated with team members to understand real-world development workflows.

Education

Bachelor's Degree (AI and DS)

2024 – 2028

Mentor Engineering College For Design Entrepreneurship and Innovation Technology

Technical Skills

- Programming Languages:** Python, JavaScript
- Frontend:** HTML5, CSS3, React.js, Bootstrap
- Backend:** Node.js, Express.js, Django
- Database:** MongoDB, SQLite
- Tools:** Git, GitHub, VS Code
- Concepts:** REST APIs, CRUD Operations, Authentication, DOM Manipulation, Async/Await, Responsive Design

Projects

Personal Portfolio Website (Live Portfolio)

- Designed and developed a modern responsive personal portfolio website.
- Showcases education, skills, certifications, internship experience, and projects.
- Integrated GitHub, LinkedIn, and contact information.
- Optimized for desktop and mobile devices.

E-Commerce Website (MERN Stack)

- Developed a complete e-commerce application using React.js, Node.js, Express.js, and MongoDB.

- Implemented authentication, product management, shopping cart, checkout, and order tracking.
- Connected frontend and backend using REST APIs.
- Built a modern responsive user interface.

Online Course Management Portal (MERN Stack)

- Developed a role-based learning management system.
- Implemented JWT authentication and secure login.
- Added course enrollment, dashboard, and progress tracking.
- Built using React.js, Express.js, Node.js, and MongoDB.

Spending Tracker (Django)

- Developed a full-stack expense tracking application using Django.
- Implemented complete CRUD operations.
- Added secure user authentication.
- Managed financial records using SQLite.

Weather Application

- Developed a real-time weather application using JavaScript and Weather API.
- Displayed live weather information with proper error handling.
- Implemented asynchronous programming using Fetch API and Async/Await.

To-Do Application

- Developed a dynamic task management application using JavaScript.
- Implemented add, edit, delete, and complete task functionality.
- Used DOM manipulation for real-time updates.

Certifications

- 5G and IoT Workshop (In collaboration with IICT Germany)
- National Service Scheme (NSS) Volunteer Certificate

Additional Information

Soft Skills: Problem Solving, Communication, Teamwork, Leadership, Time Management, Adaptability

Languages: English, Malayalam

Interests: Full Stack Development, Artificial Intelligence, UI/UX Design, Open Source, Building Innovative Web Applications
